Planning sliders 23 / 48
Objective factors 33 / 52

Moderate Planning Risk

The relocation should be supported with additional market review, affordability testing, commute/service validation, and a clearer decision path before property selection.

RECOMMENDED STANCE

Proceed cautiously and resolve the most consequential affordability, market, commute, service-access, and timing questions before narrowing the available options.

RISK DRIVER DASHBOARD

DOMAIN-LEVEL RECOMMENDED ACTIONS

- ☐ **Household complexity** · Logistics & Daily Life (37%)
Discuss additional income continuity, household logistics and support needs, and accessibility and support service planning.
- ☐ **Affordability** · Financial Fit (54%)
Validate housing budget, compensation fit, and temporary housing or stipend support.
- ☐ **Landing friction** · Decision Readiness & Dependencies (65%)
Start housing search early and align timing to labor-market and inventory conditions.
- ☐ **Disruption** · Location & Market Confidence (72%) · Primary focus
Set expectations around distance, commute, climate, and lifestyle transition before close.

FINANCIAL QUICK-READ

HOUSING COST CHANGE	POST-MOVE HOUSING BURDEN	COST-OF-LIVING CHANGE
-21.5%	19.7%	-10.0%
COMMUTE CHANGE	EST. MONTHLY HOUSING CAPACITY	EST. ANNUAL DESTINATION INCOME
-16 min	\$4,410	\$189,000
SALES TAX ENVIRONMENT	STATE INDIVIDUAL INCOME TAX	ESTIMATED HOUSEHOLD MOVING COST
9.0% -> 7.1% (-1.9 pp)	Flat 4.95% -> Flat 3.99%	\$13,000-\$19,500

Tax reference: Statewide comparison; local rates vary. Structural reference rates only. Actual liability depends on income, deductions, filing status, and credits. Local income taxes not included. Moving cost: Planning estimate for professionally transporting household goods based on move distance and estimated shipment size. Actual mover quotes may vary. Planning range is an NRM allowance, not a GSA figure.

QUALITY OF LIFE PROFILE

Quality of Life Profile - Destination more favorable

Commute Burden better · Air Quality better · Park & Green-Space Access worse · Primary Care Availability worse · Educational Attainment better
Destination relative to current location; n/c = not comparable.

ADVISOR INTERPRETATION

Moderate Planning Risk (No Regrets Move™ Index 56/100). The relocation should be supported with additional market review, affordability testing, commute/service validation, and...

GENERAL DISCLAIMER

This report incorporates client inputs and No Regrets Move™ risk model outputs. No Regrets Move™ is not a prediction engine. It is a proprietary structured decision-making aid designed to help users identify and evaluate relocation-related risks before they move. Results depend on user-provided information, assumptions, third-party data, and conditions that may change. The report and scores are informational only and should not be relied upon as legal, financial, tax, real estate, employment, school, or safety advice. Users should independently verify all material information and consult qualified professionals before making relocation or housing decisions. Use of the model does not guarantee any relocation outcome.

REFERRAL & COMPENSATION DISCLOSURE

Referral & Compensation Disclosure. Some referrals to relocation professionals, lenders, agents, or service providers may result in compensation to No Regrets Move™ or to the advisor who prepared this report. Any such relationship will be disclosed before you engage with a referred party. You are free to choose any professional you prefer; referrals are offered for convenience, not as an endorsement or requirement.

FAIR HOUSING

Fair Housing: This report evaluates relocation planning complexity only. Scores do not recommend, exclude, or rank housing options, communities, or services based on any protected characteristic.
